

About TEEP

In 2015, the Ministry of Education in Taiwan is launching a new program titled "Taiwan Experience Education Program (TEEP)" to welcome students to join different universities and colleges in Taiwan for short term professional internship. Qualified international students are welcome to apply for TEEP Fellowship. You can experience not only in-depth education in Taiwan but also connect with the Asian job market through TEEP-gateway.

Internship + Chinese

During the internship program, students who major in all areas will have an opportunity to learn about the companies (or industries) and to experience its international business operations and the developments of companies (or industries). Moreover, the students will be expected to participate in various areas in their companies in order to prepare themselves when the students get into the business world in advance. There will be various job placements according to the students' specialties.

In addition to internship, the Chinese learning, cultural immersion and high quality dormitory service will be included. The cultural immersion program is designed to help the internship students learn Chinese language and understand Taiwanese culture for the students to be successfully adapted in Taiwan during their internship period.

92,685

Outstanding Taiwan

Taiwan Nature Treasure Map Program

National Taiwan University (NTU)

The School of Forestry and Conservation, National Taiwan University (NTU), develops "Taiwan Nature Treasure Map Program" for international students exploring beauty of Taiwan from cultural and natural perspective. This program provides a paid internship opportunity for international students stay in a selected site one month. During the program, students co-work with local rangers and learn hands-on experiences. Additionally, students are allowed to spend their time exploring local nature and aboriginal culture.

Students don't need to pay for the fees; instead, they will have NTD 10,000 (around USD 330) scholarship per month. The program also provides free accommodation at internship sites. In the program, students can select a destination from five internship sites; have one month internship in the selected natural area, and there will be an orientation and a closing ceremony.

Student responsibilities: Working with local rangers (including review English documentation, interpretation, natural/cultural resources investigation and so forth; less than 3 hours per day); an observation record (text, image or video clip) of your Taiwan cultural or natural experience per week (published on FB and program website); and creating a treasure map of the internship site in the end of the program.

Short Term Experience Program for Australian Students

Southern Taiwan University of Science and Technology (STUST)

Taiwan Experience Enhancement Project is a 3-week short term program for Australian students majoring in education or related fields to gain Chinese experience and English teaching practice by immersing in Tainan, a gorgeous city of ancient culture for fun and for free (the participants pay their own air tickets only).

The summer camp program, which opens for 20 students, consists of indoor instruction and outdoor teaching. It highlights (1) learning Chinese language and culture (introducing traditional Chinese characters, tea making and Zen, and practicing calligraphy and painting), (2) visiting tourist attractions of Taiwanese historical heritage (Confucius Temple, Chikan Towers, Anping Old Fort) and Tainan cultural heritage (Chimei Museum, Sihcao Green Tunnel, Anping tree house, Science education Museum, National Museum of Taiwan Literature, and Lin Mo-niang Park), and (3) experiencing advanced transportation (High speed rail, and metro transit system) and high-tech facilities (Taiwan semiconductor manufacturing companies). Apart from field trips, learning and tasting mouth-watering local cuisine and delicacies is also included. For practicum, guiding Taiwanese junior high students learning about these scenic spots in English is the main assignment.

Connecting the World with Your On-Site Experience in Taiwan: Exploring the Beauty and Innovation of Our Rural Education

National Cheng Chi University (NCCU)

TEEP@NCCU is a continuity plan, subsequent to the primary TEEP (Taiwan Experience Education Program for International Talents), organized and run by the Ministry of Education in Taiwan. As initially planned, we provide you with the opportunity to engage your attention to the innovation and creativity in our rural schools. Further, we underpin multiple aspects and bring together a number of students who are from different specialties. Our project will enable you to see more during your time in Taiwan, whether you plan to stay further or to bring back good memories.

OUR PLAN WILL HELP YOU TO

- ◆ Widen your understanding and vision of Taiwan and its people
- ◆ Involve yourself in the primary schools and its activities
- ◆ Express your ideas, motivation, values and talents
- ◆ Call for action to share Taiwanese cultural/educational characteristics with the world

Meet Your Possibilities in Taiwan: Culture, Academics, Industry

National Tsing Hua University (NTHU)

With College of Engineering of National Tsing Hua University vision on research excellence and technology innovation, we aim to cultivate potential candidates in becoming creative and innovative leaders in this global society. This program welcomes all university students, both undergraduates and graduates, around the globe and it offers a great opportunity with the mixture of cultural experiences, academic achievements, and social outings. A student can choose an industry internship or a research internship from this program.

The research internship is a two-month or six-month research experience under the guidance of a faculty advisor from College of Engineering. Each participant will work collaboratively with their mentors on an on-going research project or a new project of mutual interests.

A student can also choose an industry internship. Through this internship, students will get a hand-on experience in Ta Tung University. It will help participants to plan their future careers and acquaint with work ethics.

A limited number of Global Engineer Leadership (GEL) scholarship includes subsidized round trip airline tickets up to NTD 15,000 and free accommodation at university residence hall. This program also arranges a field trip of places around Taiwan. Join us and meet fellow participants around the world!!

Internship Abroad with Taiwan Hi-Tech ICT

National Tsing Hua University (NTHU)

The program provides a unique opportunity for international students majoring in Electrical Engineering or Computer Science to work in top laboratories and leading ICT companies in Taiwan during summer, while experiencing the rich local culture.

Taiwan is the global base of semiconductor manufacturing and IC design. It is the home to more than half of the top 100 ICT companies in Asia. Holding the central position in the intersection between Asia and Pacific Rim, Taiwan also serves as the gateway to Asia. NTHU is located in a strategic location in Taiwan. It is adjacent to the Hsinchu Science Park, which is the primary R&D base for many high-tech industries in Taiwan.

The College of EECS at NTHU conducts world-class research and collaborates closely with the industry by establishing many joint research centers and labs. The summer internship program of the College of EECS at NTHU provides international students with the opportunity to leverage the advanced facilities, close industrial collaborations, and guidance from our distinguished faculty members. The interaction with students in this part of the world will also help broaden the participants' global perspective and familiarize themselves with Asia, the future technical and economic base.

Crouching Tigers – Cultivating Taiwan's International Business Employees in the Emerging Markets

National Cheng Kung University (NCKU)

National Cheng Kung University (NCKU), Institute of International Management (IIMBA) was established to cater to a diverse group of international and local students wishing to pursue graduate studies in the field of business management. It aims to produce well-rounded business professionals with a holistic grasp of the different issues and challenges of management, especially in an international environment.

IIMBA's scope of discipline includes Strategic Management, Marketing, Finance, Information Systems, Operations Management, Human Resources, and Entrepreneurship. All disciplines incorporate an international perspective, enabling students to learn more about the diversity that the global stage has to offer.

Through TEEP, IIMBA will work with Taiwanese international enterprise to recruit the talented youth from Emerging and also Developed Markets' countries to come to Taiwan for short-term studies. The program will take about 8 weeks, 5 to 6 days a week. The courses will include Mandarin, seminars with IIMBA faculties and executives from the enterprises. There will be enterprise visiting or culture experiencing tour included also. After 8 weeks courses, the faculties and the enterprise will choose the top third to tenth students and offering them the internship opportunity and the enterprise will offer basic salary.

International Consulting Program in Taiwan

National Sun Yat-sen University (NSYSU)

This summer, IBMBA of National Sun Yat-sen University offers you a chance to understand more about companies in Taiwan! Come and learn about Taiwanese culture and get a chance to be part of a consulting team for a leading company in Taiwan!

You really can experience an actual consulting process in 2 months! Professional and current consultants will accompany you to deal with a case and well-known and outstanding enterprises will be your client. Moreover, you will have an opportunity to stay and work for the company after completing the program.

Other than consulting, we will arrange three trips for you, to go around and enjoy the beautiful scenery in Taiwan.

In addition, we provide Mandarin classes for you to improve your Chinese ability. A test will be taken first in order to understand your ability in Chinese. Students will then be divided into different levels for training. This will be a huge advantage for a foreign student if one is considering working in Asia.

What are you waiting for? Come and join us to enjoy a wonderful consulting experience in National Sun Yat-sen University this summer!

Inter-Asia Culture Studies Global Network

University System of Taiwan (IICS-UST)

"The Inter-Asia Cultural Studies Global Network" provides each international student a scholarship for 2-4 months as well as short-term courses, individual research, and/or field internships.

The International Program in Inter-Asia Cultural Studies, University System of Taiwan (IACS-UST), serve as a platform to connect students with related departments of humanities and social sciences at the four partner universities. It highlights four curricula clusters: 1. Critical Theory and Asian Modernity, 2. Contemporary Thought-trends and Social Movements, 3. Gender/Sexuality Studies, 4. Visual Culture in NCTU, NTHU, NCU open for 2015.

Details of the program: 1. The visiting period is 2-4 months: Two months for a Summer Internship to conduct individual research, or 4 months of courses. 2. Each international student will be assigned an advising professor. In addition, a learning partner will be arranged by his or her advising professor to assist with independent research, information-gathering, and field internships, or to participate in courses and attend seminars. 3. Independent research and field internships include: Taiwan Film Institute, Taiwan Film Digital Archives Databases, Taipei Fine Art Museum, Museum of Contemporary Arts, Taipei, National Taiwan Museum of Fine Arts, Avant Garde Galleries, social movements, and the media (print media and Internet media). 4. The program will also foster interaction with the local students and other international students.
